

Income Protection Insurance

ACCELERATED PROTECTION ADVISER PRODUCT SUMMARY

FOR ADVISER USE ONLY

Balancing flexibility and affordability, our comprehensive Income Protection (IP) options have been designed to support your clients and help them get back to the life they love after illness or injury.

Our analysis found that 92% of IP claims last for less than two years, so our products offer a range of Benefit Periods, as well as different ways to provide extra support in those initial stages of a claim.

Each option also features:

Innovative, evidence-led design that ensures benefits are targeted to those with genuine needs

Designed to remain affordable

Cover for up to 70% of Super Contributions.

FIND THE COVER THAT SUITS YOUR CLIENTS' NEEDS

TAL

Income Protection Enhance

IRR UP TO
70%

BENEFIT PERIOD
To age 65

Our research shows that **more than 95%** of claiming customers are not impacted by additional conditions that apply after two years on claim.

Our most affordable long-term option, IP Enhance was designed to ensure benefits are distributed fairly, reflect your client's needs and provide cost-effective cover now and into the future. Built from our extensive research into historic IP claims – which showed only 8% extended beyond two years – IP Enhance works to support the needs of Australians.

In the first two years of a claim, IP Enhance provides your client's full Benefit Amount if they're unable to work in their Own occupation.

After two years, the Any occupation definition applies. Those who meet this definition and who are Seriously Disabled will continue to receive 100% of their Benefit Amount. Those who are not Seriously Disabled but remain Totally Unable to Work after two years will receive up to two thirds of their Benefit Amount if they meet the Any occupation definition.

If your client's condition deteriorates over time – onwards from year three of their claim – and they become Seriously Disabled, the maximum Benefit Amount will be restored.

Income Protection Assist

IRR UP TO
60%

BENEFIT PERIOD
To age 65

Offering long-term cover to age 65, IP Assist supports alternative advice strategies. It covers up to 60% of income and features an **Early Support Booster** that automatically increases the Benefit Amount by 25% for the first six months of a claim to provide your clients with extra support when they need it most.

Like IP Enhance, the Own occupation definition applies for the first two years of the claim and changes to Any occupation after that.

Income Protection Focus

IRR UP TO
70%

BENEFIT PERIOD
1, 2 or 5 years

Our short-term option, IP Focus covers up to 70% of income with a choice of a one, two or five year Benefit Period.

There are no changes to eligibility conditions over the duration of a claim – Own occupation applies throughout – so your clients have increased certainty of their Benefit Amount for the period they select.

SUPPORTING YOUR CLIENTS' RETIREMENT SAVINGS

Super Contribution Option

Available for employed customers for all income replacement options up to the same replacement ratio maximum (70% with IP Enhance and Focus; 60% with IP Assist), the Super Contribution Option ensures your clients' retirement savings continue to grow while they're on claim.

Superlink IP

Superlink IP creates two policies for your client: an IP Super policy held inside superannuation, which is linked to a policy held outside of super.

If your client needs to claim, the amount paid under the two policies is the same as it would be under a single IP policy outside of super, making this a cost and tax-effective approach.

Claims are assessed under the super policy first. Any remaining benefits not payable under that policy can be paid under the policy outside of super.

All our Income Protection products (Enhance, Focus and Assist) can be Superlinked.
