WeCare about our customers

No one can predict the future, so having adequate insurance is one of the best defences you can have to guard against life's uncertainties.

AIA Australia understands how important it is to protect yourself against unfortunate events such as accident, illness, disability or death.

In addition to protecting our policyholders and their loved ones by paying insurance benefits, wouldn't it be nice if your insurance company provided support services at times when you weren't necessarily making a claim for benefits?

AIA Australia's new support service, WeCare, offers this type of support, whenever you need it – not just when you're making a claim. WeCare is available to AIA Australia Priority Protection policyholders and members of their immediate family.

What is WeCare?
