1. A quick introduction to Integrity.

We're Integrity Life, an innovative, technology-led Australian life insurer – offering a compelling proposition to bring life insurance to everyday Australians. Our purpose is to make life insurance what our customers and Partners need it to be, by helping them when they need it most. We're a fresh, emerging alternative to some of the more traditional Insurers – we're intensely customer focused, constantly innovating, treating our customers with respect, fairness and care, and acting with integrity at all times.

We've been trusted to protect more than 187,000 people across the country, from all walks of life, and some of the biggest brands in Australia. Why? Well, we're glad you asked. Here's a quick overview on how we do things at Integrity Life (Integrity).

1.1 Benefits worth getting excited about

- We always put our Partners and customers at the heart of everything we do.
- We believe insurance is a product for life which is why we've designed our products with real-life in mind. This means not prioritising short-term gain over long-term sustainability.
- We offer a great selection of product options for individuals and businesses, allowing you to build a life insurance package to suit your clients' specific needs.
- No products are cross-subsidised.
- We're well-rated on risk research platforms, such as IRESS, RiceWarner and Omnium.
- Where Cover is index, these increases will be in-line with 'real' CPI.
- Price is critically important to most everyday Australians, that's why we've removed monthly premium loadings. Plus, we don't charge Policy fees, and have a 2-year base premium rate guarantee. Our pricing is fair and competitive with no honeymoon discounts.
- Our award-winning online experience allows you quote and apply 24/7 – anywhere, anytime and on any device. We've built all our systems to be flexible and convenient, backed with a human approach (and a great group of people who love what they do)!
- You have access to our entire knowledgeable team from Distribution and Customer Care, to Underwriting, Product Managers and even the CEO.
- We provide fair outcomes and decisions for all applications. Integrity isn't just our name, it's also the way we work.
- Lastly, we pride ourselves on clear, proactive communication, so you're never kept guessing.

2. Integrity's 'Here for You'.

Retail Product Philosophy

When we founded Integrity, we had the opportunity to create insurance Cover for real life, which is coupled with our strong focus on the customer throughout the lifecycle of their Integrity Life Policy. Our strong focus on Underwriting and Claims management, without a complex back-book to restrict us has allowed us to create a Retail product that is designed for today's consumer.

Our Retail product team seek to provide a simplified product proposition allowing Advisers to better understand and communicate the benefits to their clients. This is achieved by focusing on the Core Covers (Income Insurance, Life, TPD and Critical Illness), ensuring all benefits, features and options within the Policy will allow a Life Insured to make and receive a benefit for all legitimate claims.

We believe life insurance is a product for life. That's why:

- Our products are designed with real life in mind.
- We offer extra benefits (for lump sum Cover – Life, TPD or Critical Illness) to support your clients and their loved ones during difficult times.
- We price for the life of the Policy.

We have designed our products to have shared features that sit across all our Core Cover types. Some of these include, true level premiums, inbuilt premium relief options and no Policy fees to carry customers throughout their journey. Plus, your clients can pay by the month for no extra cost.

As we've had the opportunity to build our Retail product from the ground up, we have ensured the product is not tailored to a specific occupation, pastime, gender or Cover type. In doing this, Integrity's Here for You product is suitable for Australians who are within the relevant entry ages for each Cover type and meet our Underwriting requirements.

Policy Ownership Options

Integrity's Here for You is able to be held both outside Superannuation (personally or through a business ownership structure) or inside superannuation (either through an SMSF or through Integrity's Here for You Super Plan, where Diversa Trustees Limited is the Policy Owner). Cover can be customised to suit the needs of the Policy Owner, either on a standalone basis or through combined or split Cover for TPD or Income Insurance.

Types of Cover available under each ownership type:

Cover type	Ownership type		
	Outside Superannuation	Inside Superannuation	
		Integrity's Here for You Super Plan (Diversa Trustees Limited) as owner	SMSF trustee as owner
Income Insurance	Y	Y	Y
Life	Y	Y	Y
Critical Illness	Y	X	X
TPD	Y	Y	Y
Care Support Package	Y	X	X

2.1 Income Insurance Cover

Helps protect the Life Insured's income if they become Totally Disabled or Partially Disabled – making them unable to work.

Key Features	<ul style="list-style-type: none"> ▪ Customisable cover offering choice across Income Replacement Ratio (IRR), Waiting Period, Payment Period and optional extras. ▪ Ability to choose what percentage of the Monthly Earnings is insured - called the Income Replacement Ratio. Choice of replacing up to 50%, 60% or 70% of the Monthly Earnings. ▪ Option to 'top up' the Life Insured's Total Disability monthly benefit for the first six months of any one claim. ▪ Pre-disability income based on prior 12 months' earnings, or, if variable earnings greater than 20%, average annual income in 36 months' prior to date of disability. ▪ Your client can attempt to work during the Waiting Period and still be eligible for a benefit as long as they remain Partially Disabled. ▪ Option to choose to increase claim payments with CPI (not available for 2-year Payment Period). ▪ We will pay for retraining and rehabilitation which has tangible benefits toward the Life Insured's recovery and return to work, up to 12 times the monthly Cover Amount. ▪ If a client has a relapse of their condition, up to 12 months after a claim has ended, we may continue to pay a benefit for the remainder of the applicable Payment Period. ▪ Available both inside and outside super, with the ability to split Cover.
---------------------	---

Waiting Period 30, 60, 90 or 180 days, 1 year and 2 years.

Payment Period 2 or 5 years.

2.6 Stamp duty

For Integrity's Here for You, stamp duty is explicitly charged on the premiums paid by the Policy holder. All explicitly charged stamp duty is shown separately on the quote, Policy Schedule and Policy Anniversary (renewal) notice.

3. Discounts available on Integrity's 'Here for You' Products.

We believe your clients deserve better from their life insurance - starting with a range of discounts off our base premium rates. Our discounts are designed to support Advisers and their clients for the long term, last the life of the Policy and don't cancel each other out. Because that's how life insurance should be.

3.1 Life+ discount

Integrity's Life+ Discount rewards your clients who have made healthy choices throughout their life.

To be eligible you client will need to:

- Have a BMI between 18.5 and 27
- Be a lifetime non-smoker (less than 100 cigarettes), and
- Have no loadings or exclusions on their Integrity Cover.

Integrity's Life+ discount provides the following discounts – for the life of the Cover:

- 10.5% discount off Life Cover, and
- 5% discount on both TPD and Critical Illness Cover.

3.2 Integrity's Multi-Cover discount

Integrity Life's Multi-Cover Discount will apply a discount of 7.5% to the overall premium payable for the Policy when Income Insurance and any lump sum Cover are applied for and held in the eligible Policy bundle. This will only be available to those clients:

- who are aged 50 or less at the date their application is accepted,
- start a quote on or after 1 February 2021,
- have Income Insurance and any lump sum Cover in their Policy bundle, and
- choose a stepped premium.

Our Multi-Cover Discount will not apply to Covers which are on Level premium, even when Cover with this premium is held with Stepped premium in a Policy bundle.

Plus, any new clients (from 30 January 2023) can get an EXTRA 7.5% off the total Policy premium when they qualify for our existing Multi-Cover Discount and have at least \$500,000 Life Cover and \$500,000 TPD Cover – it's called our **bonus Multi-Cover Discount**.

The bonus Multi-Cover Discount combined with our existing Multi-Cover Discount provides a total 15% off the total Policy premium.

3.3 Care Support Package included when lump sum held

Integrity Life's Care Support Package provides a range of benefits with the aim of enhancing your client's recovery after a Care Support Event. To meet the needs of your clients, we will automatically include the Care Support Package when your client holds Life Cover, Critical Illness Cover or TPD Cover and is aged between 18-59. Please note, the Care Support Package is not available with standalone Income Insurance and is subject to Underwriting.

4. Applying for Integrity's 'Here for You' Cover.

4.1 Adviser Portal

We have built our Adviser Portal to encompass the new business insurance process – quoting, pre-assessments, applications and accessing Policy information, all consolidated into a single platform.

Internet access is required to use the Portal and whilst it's primarily designed for desktop use (based on understanding where and how you work), it also operates on tablets and mobile phones.

You can [see a demonstration of our Portal here](#) walking you through step by step how to pre-assess, quote and lodge an online application with us.

4.2 Flexible and seamless quote to application process

We've designed each aspect of the Adviser Portal to save you time. The online pre-assessment, quote and application processes are seamlessly connected, allowing you to:

Auto-save and no re-keying.

- Every piece of information entered is saved automatically, so no re-keying is required including the direct population of information entered from the quote into the application.
- Start and pause a quote or application at any stage, we save all entered details securely so you can pick up where you last left off.

Quoting with integrated pre-assessment gives greater certainty.

- You have access to a comprehensive online pre-assessment tool which allows for an extended depth of questions and gives greater certainty of the likely underwriting outcome.
- Find out more on this tool in the pre-assessment service section below.

4.3 Starting Your first Quote

Log in using your username (this will likely be your email, mobile or some other name you've nominated) and to start a new quote click the "New Retail Quote" button.

The quote tool is in this section where you can create, edit and save various quote scenarios (via downloading each quote) as many times as you need to.

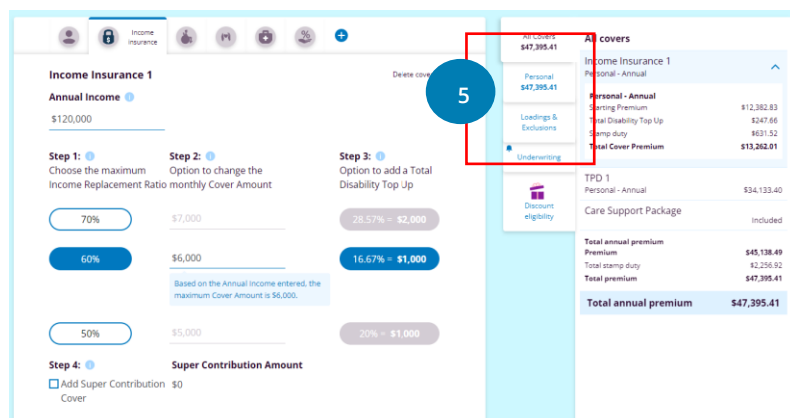

Pricing and key important information like Underwriting decisions (if you chose to pre-assess online), requirements and discounts are shown on the right in your Shopping Cart.

The screenshot displays the 'Income Insurance 1' configuration interface. It includes four steps: Step 1 (Annual Income), Step 2 (Income Replacement Ratio), Step 3 (Disability Top Up), and Step 4 (Super Contribution Amount). The Shopping Cart is a key feature of Integrity's quote tool. It brings together a view of the information you need in one place:

- 1 The *All Covers* tab shows the total premium for the Life Insured across all covers. Please note, this is defaulted to annual payment.
- 2 The *Loadings & Exclusions* tab highlights the outcomes from completing a digital pre-assessment, these are also added to the premium totals as an indicative loading.
- 3 The *Underwriting* tab shows any mandatory underwriting requirements that will be needed.
- 4 The *Discount eligibility* tab houses the rules for the discounts on offer so you can ensure you're getting the best deal for your client.
- 5 (See next page) Tabs for each of the different ownership structures (i.e., "Personal" and "Business") are also generated so you can see the premium amount payable just from the ownership type.
 - o It's in this tab that you can change the payment frequency from annual to monthly - the shopping cart auto defaults to annual.
 - o You can nominate different payment frequencies for each Policy ownership structure as shown below:

Please note: For policies held within Integrity's Here for You Super Plan they can be paid using either an annual external rollover (attracting a year 1 rebate) or by monthly Superannuation contributions.

Creating quote scenarios.

To generate different quote scenarios for the one client just:

- Enter all of the information for the first scenario into the quote tool.
- Download the quote report for the first scenario using the "Export Quote" button to effectively save this scenario result.
- Please note: All downloaded quote reports to your desktop or device are automatically saved to your Activity Log for you to then refer back to.
- Return to the existing quote in the quote tool and enter the alternate details for the second scenario. Then download the quote report again to effectively save this scenario result and so on.

Given each quote scenario downloaded is automatically saved to your Activity Log, you can create an easy audit trail for each of your scenarios within the one client file.

TIP: Remember your quotes will save automatically whenever you download the quote, so you can edit any quote started as many times as you like. No need to start a new quote each time.

Editing the quote.

- Edit the quote all the way through to submitting your application within the one client file.
- Once you're in a client's Application, you can go back and amend their quote any time prior to submission.

Entering estimated loadings into your Clients quotes.

If you have been provided with an indicative loading for your client via our Underwriting team, you can add this into the quote.

- From the Personal details Tab, click
- 'Yes, I would like to add my own loadings' and proceed to choose the relevant loading alongside the applicable cover.

Note: These loadings are for quoting purposes only and may change through the underwriting process.

4.4 Application Process

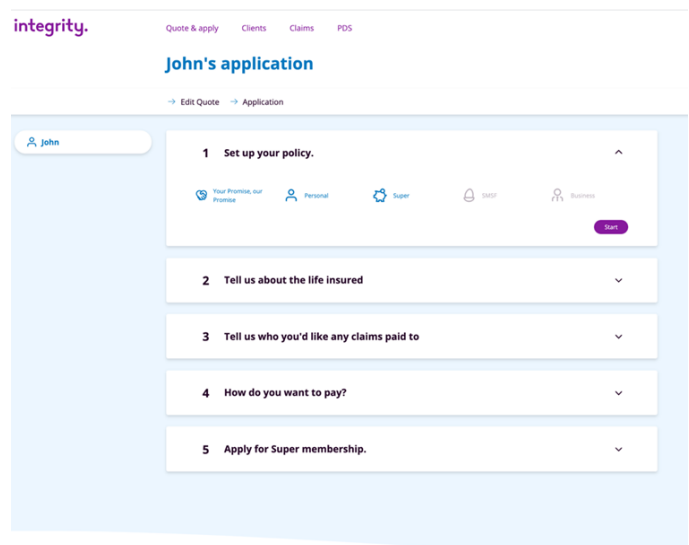

Starting the Application.

When you're ready to apply, just click the "Apply" button and follow the prompts.

Completing the Application.

We only ask you for information that we need to determine if we will accept a client and on what terms, so you don't have to go through any unnecessary sections.

Please find below an outline of our online Application sections:

- “Set up your Policy” panel: The Policy ownership(s) you’ve selected will be generated for you to complete.
- “Tell us about the life insured” panel – here is where you tell us about who is being insured and the life insured’s history – their Personal Statement effectively.

TIP: Completion of these two Panels is the minimum amount of information required to submit the application to Underwriting.

- “Tell us who you’d like any claims paid to” panel – nominate the beneficiary as on the Policy or choose to skip this section altogether with the flexibility to provide at a later date.
- “How do you want to pay?” panel – here you provide the payment details. You have the flexibility to:
 - nominate the date you would like payment withdrawn for monthly policies;
 - set the payment frequency; and
 - nominate the Policy start date – either ASAP or a specific date.
- “Apply for super membership” – when setting up inside super fund ownership, this where you provide consent to establish the superannuation account.

Key Features to a faster Application Completion.

To assist you with completing the application, we have a few tools and functionality up our sleeves to streamline and speed up the application process as follows:

Share the application with the client to complete – our answer to tele-underwriting!

You can complete the application online end to end or if you prefer, you can choose to send your client the “Life Insured History” sections for them to complete in their own time.

When you select this option, your client will be sent a secure client statement link to their nominated email address.

You will be notified once the client has completed and submitted their “Life Insured History” sections. We keep a close eye on making sure your client completes the information and will follow them up with emails and also keep you in the loop as needed. Please find an outline of the send application to client screen adjacent.

Let your client fill in their own history ✕

Now you can send this form to your client for them to fill in and send back to you. You'll be notified once they've completed it and don't forget you will still submit their application.

Flexibility to complete the entire application form in any order.

Integrity Life has provided the flexibility to submit the personal statement to underwriting ahead of finalising payment details or providing information to become a super fund member.

Once your client’s application has been submitted through to underwriting, you’ll find out instantly if it’s been accepted or if it requires further assessment.

Once your client’s personal statement has been assessed, you’ll be notified through the Daily Rollup email when terms are offered and what’s outstanding to complete in the application.

TIP: Just remember though if you would like your client to have Interim Accident Cover while we assess their application, we do need valid payment details.

Signature free (almost).

No signatures are required from you or your client when submitting applications. All client authority and declarations are done online, with one exception. For legal reasons we require a client signature for Binding Beneficiary Nominations insurance taken out within Integrity's 'Here for You' Super Plan. Completed forms can be accepted via email to hello@integritylife.com.au.

Our Revised Offer are also offered online and are available for you to accept in our Portal electronically, without the need to provide your client's signature. Please refer to the "Revised Offer" on Page 31 for further details on this process.

PDF Forms – just in case you need them.

We also have writeable pdf administration forms on our website: <https://www.integritylife.com.au/products/pds-forms/>.

4.5 Straight through processing

Integrity Life has straight through processing (STP) on cleanskin applications.

STP for Integrity Life is true straight through processing, enabling any eligible application to be inforce, without human intervention, on the date selected by you and debited on the date nominated.

✅ Outcome

Congratulations, we're able to offer your client a Policy.

Their cover will commence once we receive the payment details, beneficiary details and issue the Policy.

Don't forget to cancel their existing cover once the new cover is in place.

4.6 Arranging medical requirements

When the Underwriter has reviewed your application and raised any medical requirements you can find out what these are in the “We need some extra information” panel.

From this panel, you can arrange any of the health screening requirements for your client. Integrity Life can organise these tests through our panel of approved paramedical providers – EQ Pathology, Health Predictions, Prestige or UHG, or you can organise through your preferred provider directly.

Click on the “Health Appointments” button as shown, and the following screen pops up:

Arranging your own appointment

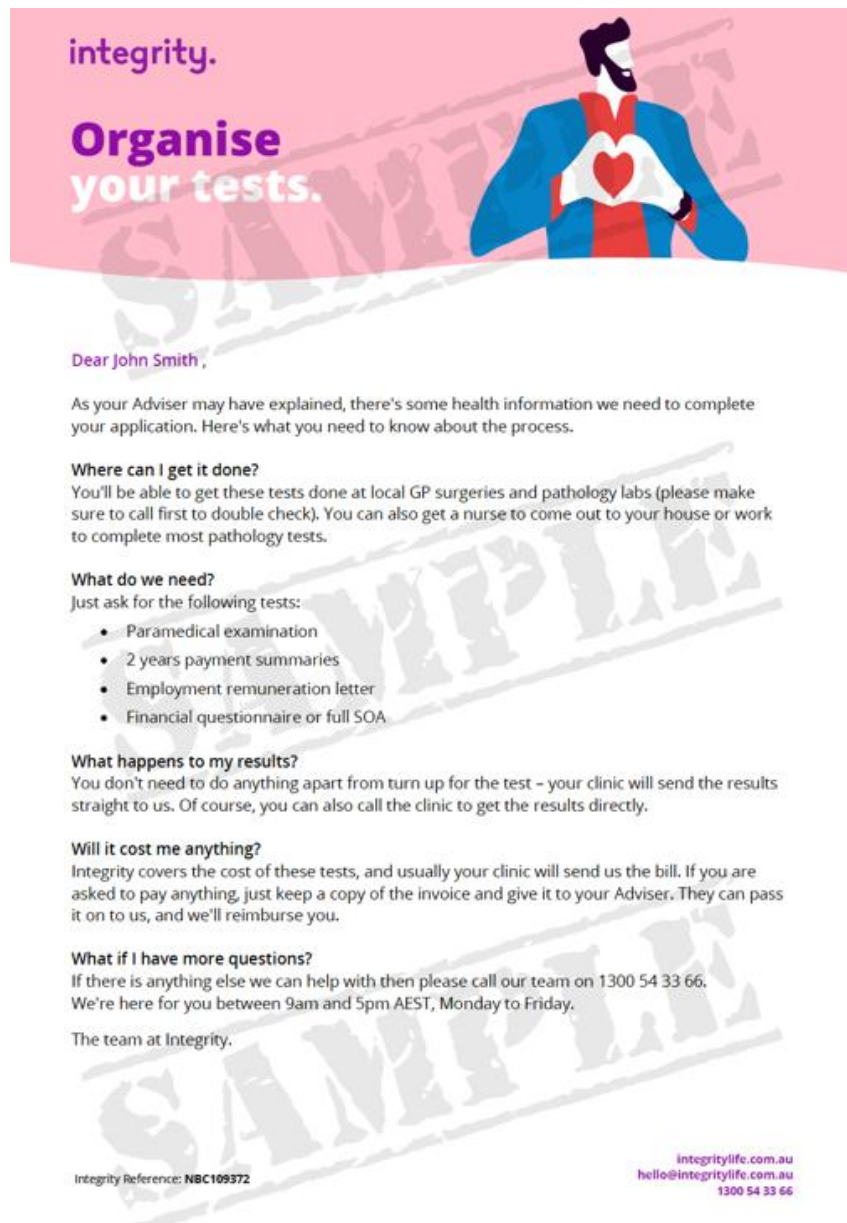

- Most doctor surgery's or pathology labs will get these tests done.
- Download these instructions or have them sent to your client so they can be taken to a doctor or pathology lab. A list of the tests required as well as a reference number will be included.
- Most doctor surgery's or pathology labs will send the results and invoice straight to us, so there is no need to pay any costs or upload any documents. If needed, you can upload the results at any time through this portal.

Life insured email

From here you can make your selection of either:

1. Getting Integrity to organise the health screening tests on your behalf by selecting "Integrity"; or
2. Arrange these tests yourself by utilising your own provider by selecting "Adviser".

Based on the requested tests, our Portal also produces a client information leaflet as shown below which you can email to them then and there, explaining why these tests are required and the next steps to progress their application – too easy!

Please note medical reports and health screening tests are valid for up to 6 months for all new applications. All medical file reports are organised by Integrity through our panel of approved paramedical providers. Please note all of application assessment costs (i.e., health screening and medical file reports) are paid by us.

We need your client's written authority to access their health information from a medical provider.

The insurance industry uses standard authority wording when requesting consultation notes from a medical provider to ensure your client understands the purpose of the authority and the circumstances under which the information is sought.

When our Underwriting team require health information from a client's doctor or a medical specialist to assess an application, they will update the application status in the Portal to notify you we are collecting your client's consent to gain access to their health information.

4 Tell us who you'd like any claims paid to

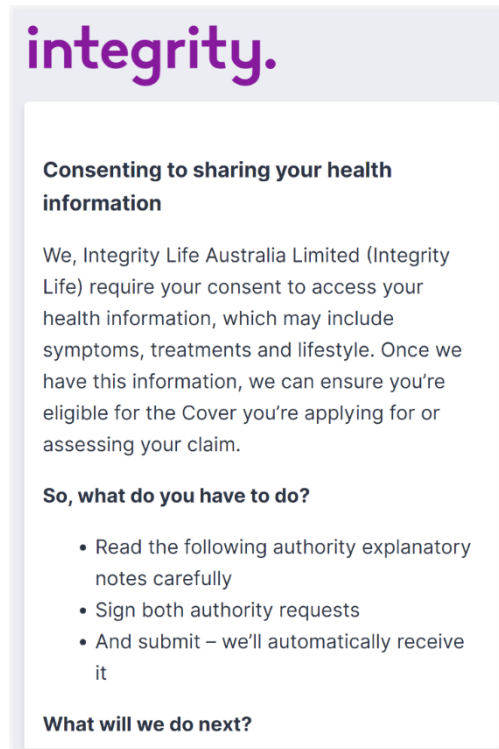

5 How do you want to pay?

Then, we'll send your client an SMS with a link to the Health Consent Form which includes explanatory information and two levels of authority:

- To access specific information, as required by the Underwriting team; and
- To access the client's full medical record.

The client will need to read and sign both authorities and then submit from their mobile phone.

Once submitted, our Customer Care team will receive the Health Consent Form and will then be able to access the health information from the Health Provider.

If your client does not provide their consent, we won't be able to assess their application.

We'll also keep your client informed each time we use their consent (when contacting the Health Provider), so they know exactly who has access to their health information and why.

Other important information.

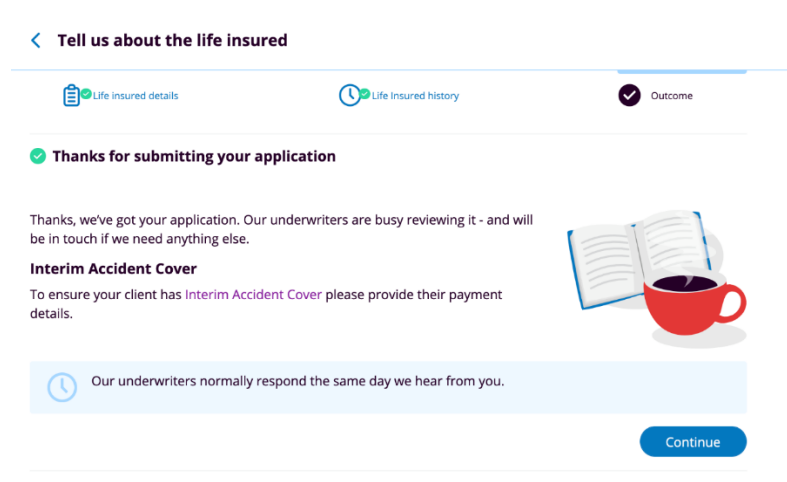

- You will no longer be able to organise client consent on Integrity's behalf. Our SMS process is so simple, easy and intuitive, clients just need to complete and submit.
- Client consent is required for multiple scenarios. We cannot use one consent for all of these scenarios:
 - Every time a new case is being assessed when medicals are needed.
 - Every time an existing Policy is going through a cover change and requires medicals.
 - Every time a claim is being assessed and medicals are required.

4.7 Keeping you informed throughout the process

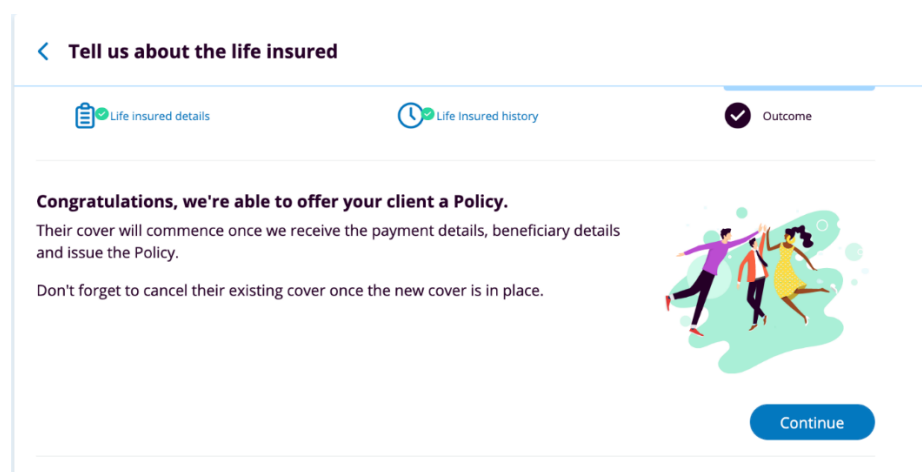

Instant Portal messaging.

Once you've applied, our Adviser Portal highlights the next steps as well as outlining what is outstanding as follows:

- If further assessment of your application is needed, we will let you know that it has been referred to our Underwriting team who will be in contact to discuss your application.

- If your case has been accepted 'straight through', the Portal will confirm instant approval and will go inforce as soon as all application details have been entered including the nominated start date.

Our Customer Care team will then touch base as normal to chase up all other Policy outstanding items to finalise getting your client's Cover in place (i.e., payment details, super membership details), where relevant. You'll also be notified via our Daily Roll Up email each afternoon.

Underwriter introduction.

- You can see which Underwriter is assigned to each application in the Activity Log.
- Your dedicated Underwriter on the case can be contacted via 1300 54 33 66, Option 2; or underwriting@integritylife.com.au

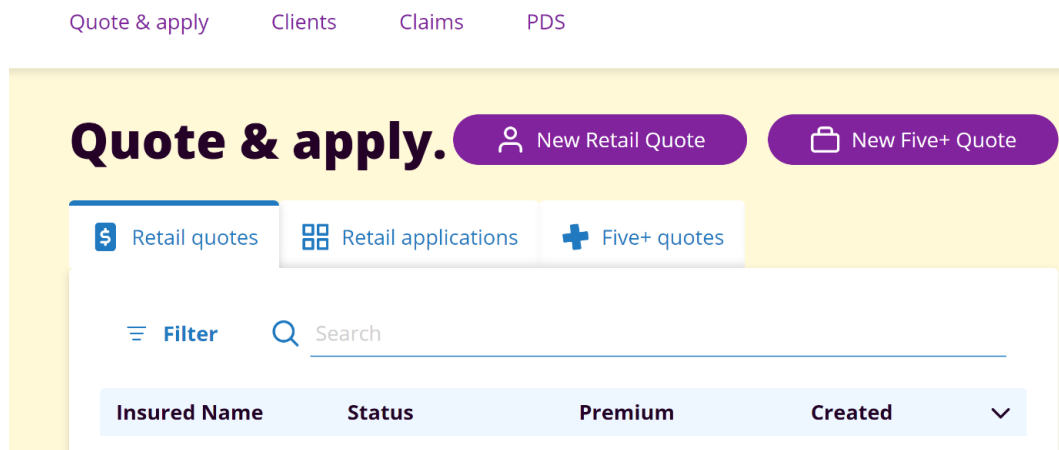

Daily Roll Up email.

- Our Daily Roll Up email is a great way of staying in the loop on new actions and updates on your applications and your clients' policies.
- All new events that occur throughout the day are consolidated into one email and sent to you at 4pm.
- You will automatically receive the Daily Roll Up email. You can update your preferences for communications in the Portal, along with changing the email address you would like this to go to, if there were someone in your team that you would rather get these emails.

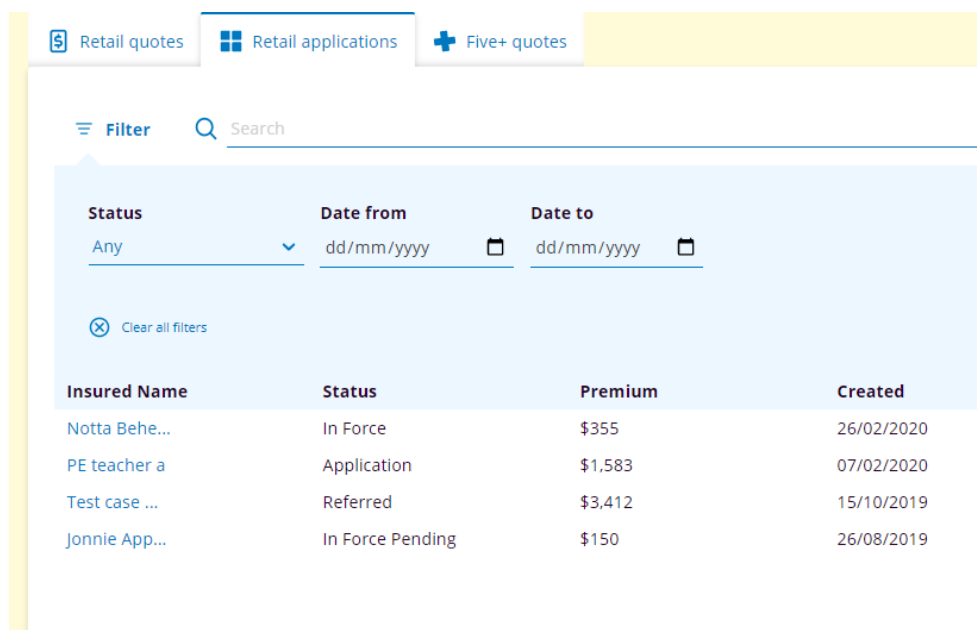

Our Award-Winning Adviser Portal.

"Quote and Apply" – Retail policies and Five+ policies.

In our Portal under the "Quote and Apply" section, you can easily see all the quotes and applications you have underway, the client and premium details as well as the status of each quote and application.

Access, search or filter for all prior quotes and applications. A view of the search functions available under each heading is shown below:

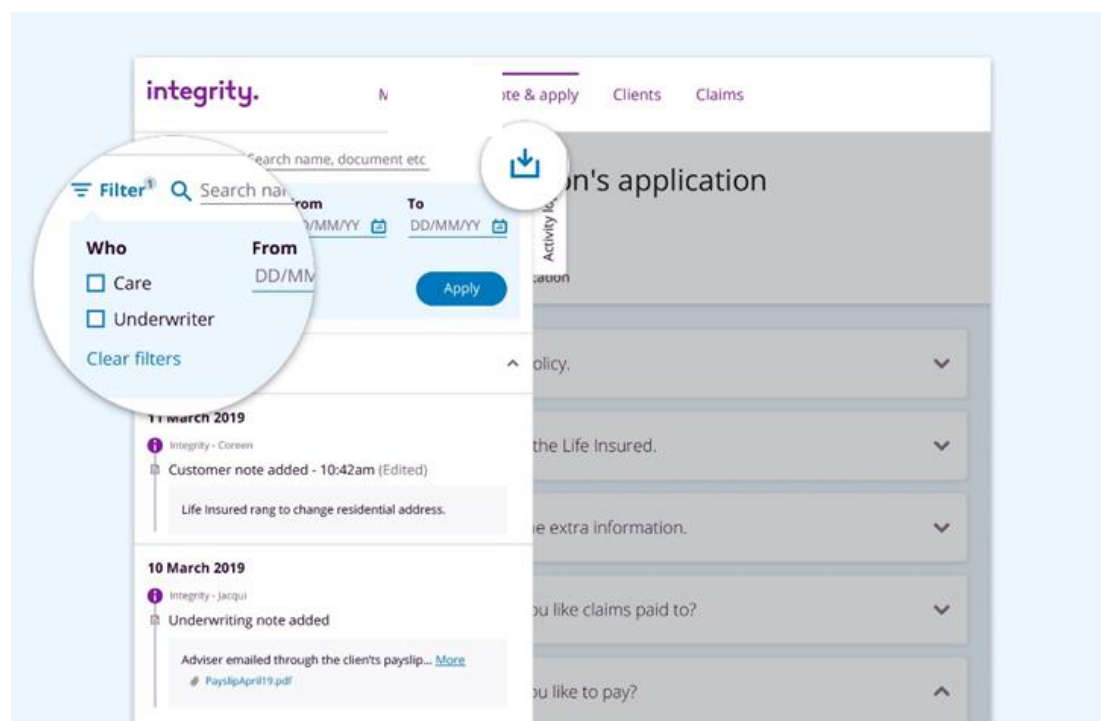

By clicking on 'Retail Applications' tab, you can search for your client's application by name, application status or via a date range. In this view, you can immediately see the current status of each of your clients.

When your client's retail application has been submitted and is awaiting Underwriting assessment, you can access the latest information and any requirements by clicking back through to their 'Retail Application' and checking the 'Activity Log' or via the Panel - "We need some extra information".

The Activity Log.

Provides a complete view of all client interactions from starting a quote through to an application becoming inforce and any premium dishonours once the Policy is active. The Activity Log and its contents will always remain accessible.

You can also quickly view the activity log associated with any quote or application via a pop out tab in the top left corner of the screen as shown below:

View Application outstandings.

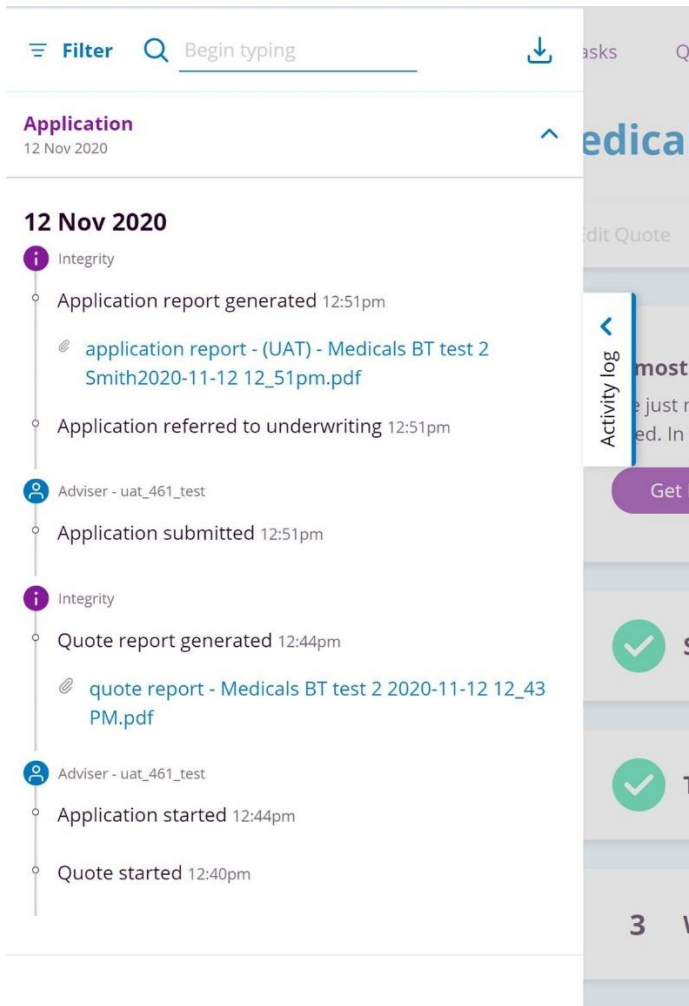

The Activity log provides a complete record of all client interactions, transactions and client documents for each application lodged with us as well as highlighting what is outstanding on each application.

When your client's retail application has been submitted and awaiting Underwriting assessment, you can access the latest information and any requirements by clicking back through to their 'Retail Application' and checking the 'Activity Log' or through the Panel - "We need some extra information".

Search & Download Interactions and Reports when needed.

You can search, filter and export from the Activity log of each application – making it easier to find what you are looking for. You can also download the full activity log at the completion of an application for their compliance records.

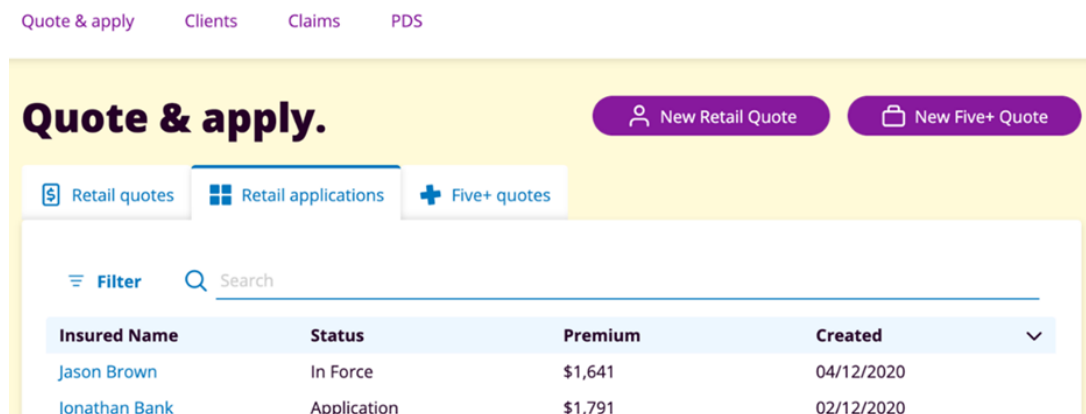

You can search and download all of your client documents from the Activity Log – quotes and application reports, Revised Offer, and Policy documents at any time in a PDF format by clicking on the “paperclip symbol” next to each document in the Activity Log as shown below:

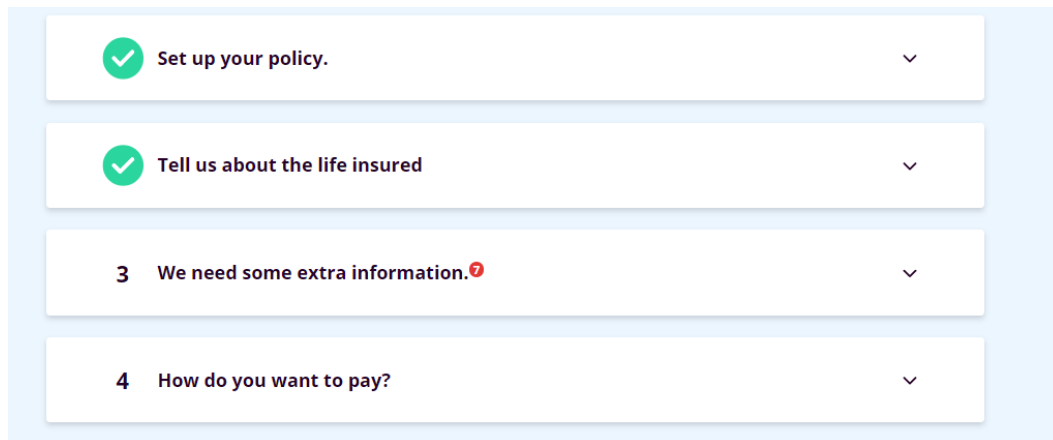

Outstanding Underwriting Requirements.

You and your practice staff can leverage our Portal to view on a case-by-case basis, each application’s outstanding underwriting requirements.

Please click into the “Quote & Apply” section as shown below:

- Select 'Retail Applications', search and click on your client's application.
- All underwriting requirements are shown in the "We need some extra Information" panel:

- Get complete transparency of all outstanding Underwriting requirements, chose what you wish to organise and see who is responsible for organising each requirement at all times through this Panel as outlined below:

Weekly follow up.

Our Customer Care team follows up any outstanding as required to finalise getting your client's Cover in place (i.e., payment details, super membership details etc).

All follow ups are also noted in the Activity Log against each application under the "Quote and Apply" section of our Portal.

4.8 Complimentary Interim Accident Cover

We provide complimentary Interim Accident Cover to your client for up to 90 days from the date of application submission, when completed in full and accompanied by valid payment details, whilst we assess their application.

Please refer to the Integrity's "Here for You" PDS for full details, Integrity's ['Here for You' Product Disclosure Statement](#).

4.9 Revised Offer (Terms)

Where we have assessed your client's application and our decision includes a loading and/or an exclusion, the Underwriter who assessed the application will always contact you to discuss our proposed terms, ensuring there are no surprises.

After discussing the proposed terms, the Underwriter will send you a revised offer which is available to view and download online (via Quote & Apply / Retail Applications and clicking on your client's name). You can accept the terms at the click of a button once you have discussed them with your client and they have agreed to proceed.

We are delighted to send you a revised offer

We have assessed your client's application. You'll find all the details you need in the revised terms document below. If you want to make changes please contact us on [1300 54 33 66](tel:1300543366).

[View revised offer](#)

Are you happy to accept this revised offer?
If you don't accept by 23/11/2020, this revised offer will expire.

I confirm I have discussed the revised terms with my client and they accept the offer.

[Accept](#)

Please note we do not require a signature from you or your client to accept this Revised Offer, if you would like to capture consent from your client via a signature, there is sufficient space at the bottom of each page to allow this.

You will also receive notification of Revised Offer in our Daily roll up email to you.

Please note Revised Offers are valid for 35 days only, at which point they expire.

Our Customer Care team will be in touch regularly during this 35-day period to give you a friendly reminder to review and accept these terms on behalf of your client, as well as highlighting when they are due to expire.

Should the Revised Offer expire, we may consider reopening the offer if your client completes and returns a Declaration of Health and Circumstances Form within 30 days of expiry.

- If there are no disclosures or comments, then Integrity will reopen the Revised Offer (Terms).
- If there are disclosures or comments, the Declaration of Health and Circumstances will be reviewed by our Underwriting team who will decide whether the offer can be reopened, or new terms offered.

If a Declaration of Health and Circumstances is not provided within 30 days of expiry (i.e. 65 days from when original Revised Offer (Terms) was made), a new application will need to be submitted.

No Revised Offer (Terms) will be reopened after 90 days from when the original application was submitted.

The Declaration of Health and Circumstances can be downloaded from the Adviser Portal or a copy sent to you by Customer Care upon request.

4.10 Declined applications

There are occasions where we may be unable to offer cover to your client. A decision to decline an application should never come as a surprise as we aim to provide complete transparency throughout our assessment process.

Our Underwriters will engage you from the outset if a decline is likely – ensuring all relevant evidence has been received as well as allowing you to speak with your client on the likely outcome.

Once you are aware of the decline decision, we will formally decline the application on our Portal and our Daily roll up email also advise you of this decision.

We will always endeavour to advise your client of the decline decision once we have confirmed that you have spoken with them directly. However, we can only delay emailing your client the decline notification for up to 4 business days.

4.11 Application currency

An application is valid for 90 days from the date of submission. This means we need to have received all required information needed for us to decide if we can accept your client's application and if so, on what terms.

Should all requirements not be received within 90 days, the client will need to complete a Declaration of Health and Circumstances confirming there has been no change in their circumstances including health and financial since the application was submitted.

Where there have been no changes, we will rely on the client's attestation that no changes have occurred to continue the assessment of their original application.

The Declaration of Health and Circumstances can be downloaded from the Adviser Portal.

If there have been changes to your client’s circumstances, our Underwriting team will determine if a new application is required to be submitted.

If we are not able to contact you to confirm the client wishes to proceed with their application after 90 days, the application will be withdrawn and marked “not proceeded with”. Should your client wish to proceed with their application after this point we will require a new application to be submitted.

As an insurance provider we must follow all legal and regulatory obligations, one of them being that we clearly present the duty to take reasonable care (Integrity’s ‘our promise/your promise’) and that the client both understands and accepts that the duty to take reasonable care continues until our underwriting team accept their application.

Once an application is withdrawn, the duty to take reasonable care must be agreed to again when a new application is submitted, and a new contract is entered into to verify we have both the client’s agreement and the correct health and financial information.

Remember Integrity’s application takes on average only 15 minutes to complete. We will always keep in touch with you throughout the application process and leading up to and during this application expiry period to ensure any application withdrawals are as consultative as they can be.

Personal	Y (Monthly and Annual)	Y (Monthly and Annual)	N
Business			
SMSF trustee		N	N
Integrity’s Here for You Super Plan (Policy owned by Diversa Trustees Limited)	Y (Monthly)	N	Y (Annual)

4.13 Transfer rules

You can also transfer existing policies to Integrity Life. We will waive any mandatory medical requirements for eligible Transferring Policies.

The following rules apply to transfer Policies.

If transferring Life Cover, the Insured person must be 60 years or younger.

If the Insured person is transferring TPD, Critical Illness or Income Insurance Cover, they must be 55 years or younger.

The existing Policy must have been “fully underwritten” in the last five years for Life, TPD and Critical Illness Cover or in the last three years for Income Insurance Cover.

Note: ‘Auto accepted’ or ‘default cover’ is not transferrable as it is not considered to have been “fully underwritten”.

For Life cover, transferrable policies include “standard” rates or maximum 100% loading or 2 exclusions.

For TPD, Critical Illness and Income insurance, transferrable policies include standard rates or maximum 50% loading or 1 exclusion.

Note: The Cover being issued by Integrity Life will be a maximum of the same amount of Cover as the existing cover being transferred, it can be less but subject to the maximum of:

- Life Cover = \$3 million
- TPD Cover = \$2 million
- Critical Illness Cover = \$1 million
- Income Insurance Cover = \$10,000 per month

You will need to provide to us a Benefit Statement or Certificate of Currency no older than 90 days if applying to transfer. Make sure you keep any existing cover with other insurers until the Integrity Life Policy is accepted and in-force.

For Critical Illness Cover, the existing insurance must cover the same conditions and be a like-for-like contract. If you are unsure, please speak with your Integrity Life BDM.

Worth keeping in mind.

The 13-month suicide or any intentional self-inflicted act exclusion will not apply if a client’s Life Cover is replacing an existing life cover Policy issued by Integrity Life or another insurer; and

- The insurance under the Policy to be replaced has been in place for a minimum of 13 consecutive months immediately prior to the commencement of the new Integrity Life Policy;
- The Policy to be replaced is cancelled immediately after the issue of the new Integrity Life Policy;
- All similar exclusions have expired under the Policy to be replaced (including exclusions which were applied to the Policy after its commencement due to, for example, reinstatements or increases); and
- The benefit amount under this Cover being issued by Integrity Life is the same or less than that under the Policy that is being replaced.
- Where the benefit amount under this Cover being issued by Integrity exceeds that of the Policy that is being replaced, this exclusion will only apply to the excess benefit amount.

Note: No claim is payable or pending under the Policy to be replaced.

5. Underwriting at Integrity.

5.1 Access to our Underwriters

Whilst our insurance applications are 100% online, we understand that sometimes the human touch is needed. We have a saying at Integrity 'digital when you want it, and human when you need it' so, our Underwriters are available to you throughout the pre-assessment and application process.

If a complex pre-assessment is required or a human touch is preferred, you can contact Underwriting during standard business hours on 1300 543 366 Option 2 or by email if preferred at underwriting@integritylife.com.au

All applications which require manual underwriting come straight to the Underwriting team upon submission. All applications are noted with the assessing Underwriter's name. We aim to keep you fully informed and as quickly as possible during the assessment process.

You can see and monitor Underwriting Requirements online just click into "We need some extra information" of your client's application as outlined in the 'Arranging Medical Requirements' section.

This section is the underwriting requirements panel and where we keep your client's documents. If you already have the evidence we need, you can upload it here during the application process.

Any evidence you do upload will be received instantaneously by your Underwriter and your Underwriter can leave notes here also. Receipt of all documents and notes made by you are also tracked to the Activity Log.

Although our Underwriters can leave you messages and notes online on each application, sometimes it may also be easier for our Underwriters to speak directly with your client to complete the assessment of an application. We will ask you upfront your preference as to whether you are comfortable for us to contact your client or to triage the contact through you. We are always guided by your preferences throughout the application assessment process.

If anything arises during the assessment of an application, the Underwriter will call you to discuss. If we are able to provide a Revised offer or if we unfortunately are unable to offer a client any cover, you will receive a call from the Underwriter explaining why.

6. Medical Requirements.

Medical screening is not performed with the expectation that anything will be ‘wrong’ with the applicant. It is a verification of the assumptions made when determining the risk appetite of the insurer, that is – to what level of benefit amount is the insurer comfortable that the applicant is close to the norm given their age?

For a new application, Integrity can use bloods and medical examinations up to 3 months old from other providers. We try to be flexible and use employment medicals and other ‘non-insurance’ screening as long as the information is fit for our purpose.

Integrity allows advisers to choose their paramedical provider or to use the applicant’s own doctor – please contact our Customer Care team if you have any questions. We can arrange screening tests with the applicant on your behalf - just let us know what you prefer.

Useful Information:

- If the applicant has a pre-existing or current medical condition or is being investigated for a medical condition, it is preferable for their own GP do the medical exam.
- If applying for Life, TPD and Critical Illness Cover then requirements for Critical Illness are to be added to the requirements for Life and TPD.
- If a client states in their personal statement that they performed a mammogram recently and it was negative with no further follow-up (unless for normal screening purposes), then the mammogram will be waived.

7. Financial Underwriting.

Financial underwriting is a check that the advice provided by you matches the contract (and benefit amount) proposed and fits our risk appetite. The Underwriter cannot determine what the level of cover should be - Underwriters are not licensed to provide advice, and it is not their role. They can advise what aspects of income for example are allowable – but these vary between clients - if in any doubt, contact Underwriting.

Third party evidence (from tax statements, accountants reports etc and a statement from the adviser demonstrating reason(s)) for cover/details of the Policy recommended by the adviser, how cover was calculated/calculations for benefit amount, financial position - assets, liabilities, income, dependents etc, will ensure that the financial aspect of the assessment is straightforward. Make sure the advice provided by you marries up with the Policy recommended, Cover applied for; and the total industry cover for each product type. The total industry Cover is the total sum insured of all similar Cover held with Integrity or any other company, plus the sum insured they're applying for under this application.

For example – a customer has \$1,000,000 Life Cover with Integrity and is applying for an additional \$2,500,000 Life Cover with Integrity. The total industry cover will therefore be \$3,500,000. The Cover is for Debt Protection so the mandatory financial requirements would be an SOA, Financial questionnaire, evidence of the loan and tax returns for the last two years.

An SOA may be requested on a discretionary basis.

8. Other Underwriting guidelines.

8.1 Hours worked

Minimum criteria for Income Insurance and TPD 'Own' Occupation = 20 hours per week for a minimum of 40 weeks per year. Minimum hours for TPD 'Any' Occupation \geq 10 hours per week for a minimum of 30 weeks per year.

Integrity Life does not impose minimum hours for TPD in respect to professional lives, (outside the minimum hours for the product type as required by product rules). The income that professionals can earn working part time (e.g., returning from sabbatical or maternity leave) is generally sufficient to qualify a loss to allow TPD even when working limited hours. Contact Underwriting if the applicant might qualify in these circumstances.

8.2 Newly self-employed

Factors to consider when determining Income Insurance availability & what terms could be available for a newly self-employed applicant include:

- What is the nature of work/industry the client is self-employed in?
- Does the client have previous experience in the proposed self-employed occupation?
- Is the client qualified for the enterprise they are undertaking?
- How does the self-employed client source work?
- How many months has client been self-employed and the total net income earned since?
- Estimated annual income & expenses since self-employment & basis for these figures.
- What was the client's occupation & income level as an employee prior to self-employment?
- Employment history from the last 5 years?
- Why the change from an employee to self-employed?
- Has the client been self-employed in the past and was it successful?

8.3 Bankruptcy

Where an applicant has a history of bankruptcy some factors Underwriting will look at when assessing an application particularly for Income Insurance and other proposed cover as either reasonable or not, are as follows:

Favourable Factors include.

- Single bankruptcy (with mitigating circumstances).
- Discharged with at least a 3-year history of employment/business and financial stability.
- Bankruptcy due to going guarantor, e.g. on a loan.

Unfavourable Factors include.

- History of more than one bankruptcy
- Recent or pending bankruptcy or liquidation of any business they have been a director/officer of an ownership interest in directly or otherwise.
- Outstanding debts.
- History of fraud.
- Inconsistent employment or business history.
- Mental Health issues.

In general, we will not insure undischarged bankrupts.

8.4 Residency

In order for Cover on the Life Insured to be effective, they must be a resident in Australia at the time their application.

For those client's whose residency status is temporary, some factors Underwriting consider are:

Positive factors.

- Already applied for permanent residency.
- Intentions to stay - owning assets here and/or actually started the Permanent Resident application.
- Residing already at least 12 months in Australia.
- Married to an Australian.
- Consistent work history.
- Citizens of countries where it would be deemed, if we did have a claim (if the client did not stay in Australia) that it would be easier to get reports in English, first world standard medical care and reinsurance support available in that country.
- Any Temporary Skills Shortage or De Facto visa with an intention to stay in Australia.

Negative factors.

- Visa expiring soon.
- Bridging Visa without explanation of why and what will happen next.
- No intentions to stay in Australia permanently.
- Citizens of countries where it would be deemed, if we did have a claim (if the client did not stay in Australia) that it could be problematic, by language barriers or general medical expertise or lacking reinsurance support in that country.

Our Underwriters do use a range of residency clauses and if one is applicable for an application to proceed, we will discuss options with you during the quote and application process.

8.5 Pregnancy

Provided that there are no complications with the current pregnancy or with a previous pregnancy, Cover can be considered for clients who are currently pregnant.

Life and Critical Illness can be considered up to the date of delivery and Income Insurance and TPD during the first 36 weeks of pregnancy.

If your client applies for Income Insurance within the first 36 weeks of pregnancy those clients with a firm intention of returning to work within 12months of childbirth and at the minimum hours (20 hours per week, 40 weeks per year) would have no barrier to Cover.

Cover will not be offered if the client intends to take more than 12 months off work or if their hours will be under the minimum threshold when they return. They must meet the minimum hours for Income Insurance or the type of TPD applied for and the Income Insurance cover must be at the appropriate level to sustain a claim financially. Please refer to the PDS for further information on this section.

Please note for Income Insurance, normal or uncomplicated pregnancy or childbirth is automatically excluded from the contract.

8.6 Mental health

Integrity Life Underwriters assess mental health issues as they do any other health disclosures – we base our decision on the risk, the data applicable to that risk and we overlay a values driven assessment – bearing in mind our obligations to our Policyholders.

We look at three main areas when assessing mental health – cause (what was the stressor), time (how long ago was the event and how long did it persist), and effect (how was the applicant affected – ability to work, time off and outcomes).

This is a complex area of underwriting so please contact your Underwriter if we can assist in assessment of a mental health history.

8.7 Build / body mass index

Body mass index ('BMI') is a primary assessment measurement in underwriting. It is indicative of general health over a large population, which is where the data for rating build is derived.

Integrity Life stratifies additional loadings for BMI by age (BMI is less of a health issue at older ages where the same BMI may be rateable at younger ages).

Unless more comprehensive mandatory requirements are needed, a BMI of 35 or more will require a Minicheck.

Once your client's BMI reaches 40 or more, a Paramedical Exam will be required together with an MBA20 and HbA1c blood test.

Pre-assessment tool will be the fastest way of determining a BMI outcome. However, if you would prefer to speak to our Underwriters please reach out.

9. Activities and pursuits guidelines.

We have included below the most commonly encountered Sports and Hobbies. Most common amateur sports are accepted without restriction – the exceptions are what is included in the guide below. Football and off-road motorcycling (trail bike riding) have produced more claims than expected in the trade / blue collar occupations and so both are subject to special terms.

10. Occupation guidelines.

Integrity considers your client’s occupation when assessing their application for insurance, particularly Income Insurance and TPD.

Integrity uses the power of the UnderWriteMe rules engine to assign a particular occupation to the relevant occupation class which impacts the premium and the type of cover available to your client.

As outlined in our “Here for You” PDS, the following occupation classes are used by Integrity to categorise more than 4,500 occupations within our underwriting rules engine:

Occupation classes.

Occupation class	Occupation class description
1 – Professional* / White	Degree qualified white-collar professionals and high income earning senior business executives. Clerical and managerial occupations.
2 – Light Blue	A broad range of occupations with low physical activity.
3 – Blue	Qualified trades with a minimum 2-years’ experience, not working at heights above 10 metres.
4 – Heavy Blue	A range of blue-collar occupations including trades without qualifications.
5 – Red	High risk / special risk occupations.

*Professional lives are discounted within the quote versus White Collar.

Cover available by Occupation class.

Occupation class	Income Insurance			TPD		Care Support Package
	2-year payment period	5-year payment period	To Age 65	TPD Any Occupation	TPD Own Occupation	
1 Professional / White	✓	✓	✓	✓	✓	✓
2 Light Blue	✓	✓	✓	✓	✓	✓
3 Blue	✓	✓	✓	✓	✓	✓
4 Heavy Blue	✓	x	x	✓	x	✓
5 Red	x	x	x	x	x	✓

Our Underwriters and your respective Distribution Rep also have this mapping so please feel free to chat to them for any further guidance, ensuring the most appropriate occupation is chosen for your client’s application at the point of submission.

10.1 Our occupation rating philosophy

Our Underwriting Philosophy on occupation categories is strict on adherence to the product and actuarial assessment of the risk and terms applied to occupations.

Even though occupation rating seems innocuous, it is a major pricing lever, and in order to sustain our premium rates we take this aspect seriously.

If the duties of the occupation are as per our occupation mapping guide or similar to an occupation in that guide, that is the occupational class to be imposed.

There is underwriting discretion only when the duties are not exactly as stated and there is a prudent assessment to whether those duties improve or decrease the category in the guide.

Most occupation ratings are self-evident e.g. a qualified plumber.

But - If the plumber is now running a significant business and is not involved in manual work anymore, then the occupation descriptor should be that of someone running a business (e.g. manager no manual work, or manager 10% manual) and not a tradesman. The type of business becomes less relevant – the duties and day to day activities / responsibility and accountability become more important.

Occupations in the professional disciplines e.g. lawyers, medical practitioners and CPA qualified accountants are also straightforward.

Applicants who may be considered for inclusion in the 'Professional' category need to possess most of the characteristics of a professional practitioner. They must be responsible and accountable for high level, major business strategy and for a medium to large company.

Often, even though the role may be that of a senior executive – commonly these applicants are qualified in a business, legal or accounting discipline and would qualify to be classed as a 'Professional' in any event.

Some of the key factors considered when classifying occupations as 'Professional' when some or all of the above don't apply may include:

- Senior leadership role (executive committee, board, general management).
- Member of a professional body requiring formal qualifications and ongoing licensing/education to maintain that membership.
- Overarching responsibility and accountability for the implementation of critical business strategies.
- Responsibility for a significant budget.

Please note for clients working reduced hours this is not a barrier to obtaining a 'Professional' occupation class. At Integrity Life, we understand many professionals change their working hours due to their current life circumstances. As long as your client meets the minimum hours required for the cover requested, they will qualify for Professional Class if that is their current occupational role.

If you require further guidance on any occupation, please reach out to your BDM or our Underwriting Team for further clarification.

11. Commissions.

- We process commissions on a weekly basis and pay directly to an AFS Licensee/Dealer Group each Monday or the following day for national Public Holidays.
- Commission dial down is available in 10% increments up to 100%.
- Commission is payable on premium after relevant discounts and loadings. Any dialled down commission will impact the premium payable.
- Commission is not payable on any government stamp duty charges.
- Initial commission for year one is paid upfront when the Policy goes into force, regardless of the premium frequency.
- Renewal commission from year two onwards is paid upon receipt of the premium.

Given commission is payable on Policy premiums, please find below a worked example showing the commission payable at inception where a client chooses a monthly versus an annual premium payment frequency.

Policy	Ownership	Monthly Premium	Annual Premium
'Here for You' Personal	Personal	\$190.38	\$2,115.50
Total Premium Payable – Year One		\$2,284.56	\$2,115.50
Total Commission Payable (incl. GST) – Year One*		\$1,507.81	\$1,396.23

*Assumes stepped commission applied at 66%

Commission Structure	Initial Rate ²	Renewal Rate ²
Level Commission	30%	30%
24 months Responsibility Period¹		
Higher Initial for Policy issued prior to 1 January 2019	88%	22%
Higher Initial for Policy issued prior to 1 January 2020	77%	
Higher Initial for Policy issued from 1 January 2020 onwards	66%	

Commission may be dialled down in 10% increments up to 100%.

Policy increase due to:	Commission Rate
CPI indexation of Sum Insured	Renewal commission rate
Life Events increase in lump sum Cover Amount	Initial commission rate
Life Events Increase in disability sum Insured due to salary increase	
Business Events increase in lump sum Cover Amount	

Note 1: Responsibility Period means number of months of premium from Policy start date, when a proportion of commissions paid will be reversed if cover lapses or is cancelled.

Note 2: All Retail commission rates are inclusive of GST.

11.1 Commission clawbacks (responsibility periods)

Where there is a reduction in the Policy cost, the following clawback rules will apply. A reduction in premium may occur in the following scenarios:

- Cancellation of Policy (lapse)
- Reduction in Cover Amount
- Change in premium type (Level to Stepped)

From Cover start date:	
Up to 12 months	100% (Level (pro-rata) & Higher Initial)
12 - 24 months	60% (Higher Initial only)
For Policy increases/alterations:	
Up to 12 months	100% (Level (pro-rata) & Higher Initial)
12 - 24 months	60%

Commission will be clawed back on any premium that is refunded to the client or waived.

Please note any amount clawed back will include GST. Clawbacks don't apply to any of the following:

- Coverage ceases where the Life Insured reaches cover expiry age
- Coverage ceases as a result of a claim
- Reduction in premium is due to a new discount or change in our premium structure

11.2 Continuation option

Any retail Policy issued under the Continuation Option feature of our corporate group products, will be offered level commission structure only.

12. Policy administration.

12.1 Renewals

Please find below our timeframes for providing you and your clients' transparency around upcoming Policy anniversaries.

Notice	Timing	Provided to	Where
Upcoming renewals in the next month	42 days prior	Adviser	Notification on our Portal, under "Clients" view.
Renewal Notice	30 days prior	Client	Renewal notice sent via email and posted to Activity Log for Adviser to access.
At Renewal	Day of renewal & premium deducted	Client	Only contacted by the Customer Care team if renewal deductions were unsuccessful.

12.2 Alterations

In many cases, general Policy updates such as changes of address, contact details, payment details and payment frequencies can be completed over the phone and/or actioned via an email through our Customer Care team.

For more complex Policy alterations, we will generally need more specific information or need to speak with you or your client first.

In any case, our Customer Care team is the best point of contact for all Policy alterations. They will clearly explain what you need to do and why, as well as assisting with producing revised quotes as required, so we can manage you and your client's request as efficiently as possible.

Please find an outline of the most common Policy alterations requests we receive and what we generally need from you and your client to action:

12.5 Managing Missed Premium Payments

We understand that sometimes people can miss a premium payment by temporarily having insufficient funds in their account(s) or their payment details might have changed.

If we do not receive your client’s premium by the due date, we will email them a dishonour notification once we become aware including how to rectify this (keeping the Adviser in the loop every step of the way) – we’ll also track this interaction within the Activity log. In some cases, we’ll attempt a restrike of the premium. Your client will have at least 30 days from the original payment due date to ensure sufficient funds are available or provide updated payment details, after which we can reattempt collection of the premium.

If their premiums remain outstanding after 30 days, we’ll trigger our cancellation (lapse) process. This gives the client at least 45 days notice before their Policy will be cancelled. If they continue to fail to pay their premiums, their Integrity Policy will be cancelled.

12.6 Reinstatements

Where your client’s Policy is cancelled due to non-payment of premiums, your client can apply to reinstate their Policy within 90 days from the initial premium dishonour date as follows:

Eligibility	Requirements to Reinstate	How
If less than 90 days since initial dishonour	Payment of outstanding premiums only	Adviser to email or call Integrity to arrange immediate payment of all outstanding premiums.
If greater than 90 days since initial dishonour	New application required and may be subject to underwriting.	A new application will need to be completed within the Adviser Portal.

13. Claims.

Our Claims Philosophy: “Being there when your Clients need us most”. No one wants to have to claim on their life insurance, but if your client needs to, you want to know that your insurer is going to make their situation better and not worse.

Claiming on a life insurance Policy inevitably means that something unexpected and unfortunate has occurred. Regardless of whether that is the death of a loved one or an accident that is preventing your Client from working, it is likely to be a highly emotional time and generally one they haven't had to navigate before. It is critical that you and your Client can rely on a team who can get them through it.

13.1 A personalised, straightforward claims philosophy

When we founded Integrity, we did so with a clear and simple mission to help people when they need help most and there is no time when you and your client will need help more than at claim time.

To guide our systems and processes, we have a simple and straight forward claims philosophy. We treat all people who lodge a claim the way we would want to be treated if we were in their place. In part, that's because many of us have been there, so it's not just a job for us.

When something happens and your Client needs to lodge a claim we will:

- Get to know them, understand their needs holistically, and treat them with fairness, care and respect at all times.
- Personalise the experience so it's as straightforward as possible, including that we pay Income Insurance benefits on the day that suits your Client plus there won't be any forms, we'll capture only the information that we absolutely need over the phone and clients have direct access and contact information for their dedicated claims specialist.
- Assess your Client's claim fairly, be transparent and keep you proactively informed based on your and your client's preferences for frequency and method.
- Support your Client to set goals and then collaborate with them and their health network to set out an action plan to achieve the best possible outcome for them.
- Connect your Client to support services and resources that can help them and their family adjust.
- Always ask ourselves if there is a better way to provide support. Our resourcing model means dedicated claims specialists have the time and resources to focus on what matters – our clients.

13.2 We've removed the painful paperwork

There are many elements to how we work to minimise friction in the claim process, but a key example is our elimination of claim forms as follows:

Tele-claim process.

We've eliminated claim forms for almost all claims and replaced them with a tele-claim process that allows us to collect the information we need for a claim quickly and with less follow ups for additional information.

Personalised Treating Doctor's Report.

We've further streamlined the claims process by generating fully personalised treating doctor's report questionnaires so that a busy doctor can provide information on a claim without having to wade through pages of questions.

13.3 Early Intervention

We believe that the sooner we can support someone, the better their outcomes will be. So not only have we cut all the red tape out of claims, but we're also equipped to offer a wide range of support from the get-go.

Our claims approach includes a commitment to work with your client and their treating doctor to achieve the best possible outcome from the claims process. A key part of delivering on this commitment is the application of rehabilitation and other support services in a coordinated and timely manner.

So, the sooner we are engaged about an unfortunate change in your client's circumstances, the sooner we can work with you and your client to deliver a better claims outcome for them.

13.4 Our claims process

<p>Making a Claim</p>	<p>If a claim needs to be made, just call or email us at: Call us: 1300 54 33 66, Option 3 Email us: claims@integritylife.com.au</p>
<p>Assessment</p>	<ul style="list-style-type: none"> ▪ As soon we know that your client would like to make a claim, they'll be assigned a dedicated claims manager to help them through the assessment process. Their claims consultant will clearly set out the information needed. ▪ We usually respond and assign a dedicated Claims Manager within 1-2 business days. ▪ The dedicated Claims Manager then organises an appropriate time with your client to conduct a Tele-Claims interview to obtain further information, confirm your client's communication preferences and gather their proof of identity. ▪ Based on these discussions, we tailor the treating doctor's report for your client's doctor(s) to complete. ▪ Depending on the type of claim, we may also require additional medical or financial evidence. We will always make sure we clearly explain to you and your Client why any further information is required.
<p>Outcome Communications</p>	<ul style="list-style-type: none"> ▪ Some claims are simple, allowing a quick decision. ▪ However, other claims are more involved, and it may take more time for us to reach a decision. Please note, the time it takes is often dependent on how quickly we're able to obtain any additional information from your client, relevant doctors or other third parties. ▪ Either way, you can rest assured that we'll be working as fast as possible, ensuring you and your client are kept informed of our progress every step of the way.

13.5 Claims resolution process

If you're concerned about the way your Client's claim is progressing, or disagree with our claim response, please talk to your client's dedicated Claims Manager in the first instance.

If they cannot resolve you or your client's issue, you can request to have the matter reviewed by our Head of Claims separately or escalated to our [complaints and dispute process](#).

Please note all declined claims are reviewed by our Head of Claims and only declined after a formal meeting and decision by Integrity's Claims Review Committee.

Should you still be dissatisfied with the outcome after our internal review, you and your client can refer the matter to [AFCA](#), Integrity's external dispute resolution provider to resolve the issue.

We can provide you with information about the options available and how you can contact the relevant organisation if things get to this stage.
